## Robotics Software Engineer Nanodegree Program

---

**Hi Kartik,**

Congratulations, you have successfully completed Term 1 of the Robotics Software Engineer Nanodegree program! With 4 new projects in your portfolio, you're half of the way to your Nanodegree certificate and one step closer to landing your place in the robotics field.

Here's a look at what you've accomplished:

- Successfully completed 4 robotics projects
- Gained skills in deep learning, perception, kinematics, and more!
- Learned frameworks such as ROS and TensorFlow
- Controlled a Mars rover, robotic arms, and a UAV
- Kept up the pace for 4+ rigorous months

Congratulations on arriving at this incredible moment in your progress! We hope you'll keep up the momentum and enroll in Term 2! This is an extremely exciting time, and [Term 2 is going to be amazing.](#)

ENROLL NOW

Best,

The Robotics Software Engineer Nanodegree Team
